

Dream Corner

WOW! What a life we live with Mary Kay! Who would have thought that this is what

the Lord had in store for me over 13 years ago when I was approached by Ken Butters on a Sunday at church? This has been quite a journey, full of fun, joy, many life lessons, and personal growth. I truly believe with every fiber in my body that being a Mary Kay Sales Director is the best career out there for any woman (Of course then there's NSD). When I decided to start my Mary Kay business, I told my husband that I would do this first and if I failed I would get a "Real" job. Thank God I have never had to go get a real job! There have been several great things about being in this business and one is that I have been at home with my kids while being very involved in their activities. I have been able to go to all their games, performances, school functions, and even occasionally travel with my husband with his job for the Cincinnati Reds. Just this past month I had the pleasure of doing something very special for my husband with my Mary Kay money, a

private theater room in our home. Let me tell you, my husband Freddie is like a little kid in a candy store enjoying it too much!!! These are some of the great things that have benefited me personally, but the best part is when I see women like my offspring Sales Directors, who have become such a success with this business and provide for their family. There is a special feeling I get when I see my sister Diana Peña walk across stage and be crowned as the #1 in Mona's Area, or when I see Diana Caballero empower more women into this position of Directorship, or when I see Lourdes James get tears from excitement by seeing her offspring Angelica earn her car. What else can I say; I am destined to do this for the rest of my life. I love the life I live with Mary Kay.

*Independent Future Executive Senior Sales Director
